

Jodi Hetman

Educator and Instructional Designer

Professional, innovative, and driven instructional designer and educator with a strong desire to create and produce engaging learning solutions for personalized learning. Seeking to bring ADDIE design frameworks, problem-solving skills, and innovative design solutions to K-12 education.

Experience

2015 - present

Educator

Revere Local Schools, Akron, Ohio

- Currently serve on the BES technology to design, develop, and deliver learning opportunities to certificated staff
- Previously served on the district technology committee to drive training and implementation of the 1:1 Apple initiative
- Member of Revere Local Schools Innovation team since 2018
- A fourth-grade classroom teacher for three years at Bath Elementary School (BES)
- A second-grade classroom teacher for four years at Richfield Elementary School (RES)

Key achievement:

Introduced flipped learning and a self-paced student learning model through the creation of 100+ eLearning modules

2012 - 2015

Curriculum Department Assistant

Brecksville Broadview Heights City Schools, Brecksville, Ohio

- Used previous business experience, curiosity, and learning agility to create a standard purchase order system
- Implemented strong planning and project management skills to lead curriculum adoptions, organize training, and manage certificated staff needs
- Took the innovative approach to professional development by stepping into classrooms to train teachers, administrators, and students on software and hardware

Key achievement:

Led professional development learning opportunities, delivered classroom training, and effectively analyzed the needs of senior management
